Our MA 4-H representatives to the National GLEAD team have submitted a map for the ESRI User Conference Map Gallery that is happening in San Diego, CA from July 10-14. We hope to apply to send a team to California next year. Check out their map and scan the QR code for more info.

If you could create a map, what would it include? Do you like Geocaching? Lots of Geospatial technology and it is becoming an important skill with towns, environmental groups and non-profits, electric companies, emergency management and in disasters and so much more. Look for more workshops and an information session or reach out to [Kim Pond](#) to learn more about the opportunities.

Horse Shows

A must read before you start showing the 4-H show circuit: Review the latest rules, what is legal show equipment, the latest horse show forms, and other horse show details so that you are up-to-date before entering the ring. <https://ag.umass.edu/mass4h/clubs-programs/animal-science-program/horses>

Be sure to contact Carrie Sears at ccsears@umass.edu with any animal science questions.

STEM Programs & Updates

2023 4-H STEM Challenge

Power Level: CRITICAL. Through decades of neglect and waste, Energy Island is in danger of becoming unplugged forever. Now it's in the hands of the next generation—*The Power Protectors*—to bring back a sustainable balance.

Working together as a SUPER team toward a common goal, young people will help endangered Energy Island move from its unsustainable carbon-based energy use to renewable solar, wind and hydro power.

By completing three engaging activities and using cooperation, determination and the POWER of reusable energy, youth will PLAY and WIN together as The Power Protectors!

Contact [Kim Pond](#) for more information on participating in this year's 4-H STEM Challenge!

Do you want to conduct a short-term STEM project with your club or others? Several options and kits are available such as electricity, rocketry, 3-D printing and coding. For more information contact Kim Pond at kima@umass.edu

Community Service

Season 3 of the Seasons of Giving Program

Thanks to all the clubs who have been participating in the Seasons for Giving Community Service Program. The third season (mid-April to mid-July) is in full swing. Club leaders who participated in the first Season of Giving Community Service Program should have received the items they requested. The second season (mid-January to mid-April) has wrapped up and club leaders should have received the link to submit any community service they have done.

We are finalizing the second season and will be reaching out to Club Leaders to fulfill their item requests for those that selected a customizable option. Now that we are in a very busy time in the 4-H year we are happy to be opening up the survey for the third season as the year is quickly going by.

- If this is your club's first time submitting – great! The first season options are available to choose from.
- If this is the second season your club is participating in, you have levelled up and have new options.
- Congratulations to those completing their third season as there are some cool options for you.

What is the Four Seasons of Giving Program?

Service to others has always been an important part of the 4-H club program. One part of the 4-H pledge states, "I pledge my hands to larger service." An entire section of the 4-H Summary Record is dedicated to the documentation of community service done by each 4-H member.

4-H groups often conduct community service projects in local communities where they meet. These projects include community beautification, collecting donations for food pantries, raising money for charities, volunteering in nursing homes and donating needed items to hospice and hospitals, to name just a few.

Find the details about our current list of ideas and incentives: [2022-2023 Four Seasons of Giving](#). More information is on the website along with ideas for community service: <https://ag.umass.edu/mass4h/clubs-programs/community-service>

Club leaders will receive an email at the end of each season when it is time to report their results. Thanks in advance for contributing to this statewide effort!

If this is your club's first or second time participating, the first and second season options are available for your club to choose from (see past NewsBlasts or the Four Seasons of Giving link above for more information). If this is your club's third season of participation this year, you have leveled up! Your club will have these prize options to choose from:

Spotlight on 4-H Youth

Explore UMass

It was great to be back!

Explore UMass resumed this year as a three day, two night program with 35 youth participants and 8 teen leaders. On Monday, youth participate in one of four tracks focused on Nursing and Health Science, Food Science, Urban Design, and Veterinary Science. On Tuesday, participants toured research labs, college resources, the permaculture gardens and more with Summer Scholars who are UMass Undergrad students.

We are already excited to start planning for Explore UMass!

Are you excited to participate in 2024? Hold the date for June 23-25, 2024.

If you are going to be 16+ and want to be a teen leader - please apply this Fall. If you want to be a volunteer, reach out to Kim Pond or Lauren DuBois. If you are a professional in a science field or have connection at UMass for a potential tour/track that would benefit youth, please let us know.

We would like to thank our teen leaders and Dave Motta, our adult volunteer chaperone, and 4-H staff members who organized this event. Thanks also goes out to The Massachusetts 4-H Foundation and all those who support the Tractor Supply Clover Campaigns. These funds help us to offer the program at a reduced cost to our 4-H member by covering most of the overhead costs.

Massachusetts 4-H Foundation

2023 Shirley Kane Memorial 4-H Golf Tournament

The Massachusetts 4-H Foundation will hold its 21st annual Shirley Kane Memorial 4-H Golf Tournament on Monday, September 11th at the Holden Hills Country Club.

The golf tournament supports ALL Massachusetts 4-H programs, including animal science, STEM, visual presentations, and more! Plus, it's a fun time. Enjoy a great day of golf, and then stay and socialize at a casual BBQ.

To sponsor or play, please [visit the Foundation's website](#). We hope to see you there!

Club Grants for New 4-H Clubs

We are pleased to add a new club grant option to the Foundation's Grants Program. This specific grant is for \$150 and is available to new 4-H clubs to support start up needs such as meeting space cost, t-shirts, sweatshirts, program supplies, etc. [Club Grant for New 4-H Clubs Form](#)
